INDEPENDENT WORK

Tile Runner

2026 · In production. A puzzle runner for phones with 50 levels, which I designed and am building with Claude Code as a single-file web game.

The Thought that Counts

A mental-health arcade game I designed and programmed. Weekly prize, Best Interactive Art, Adelaide Fringe 2021; \$10k SA Arts grant.

PROFILE

I'm an experience designer, technologist and storyteller. For 19 years I've made games, installations and live performances with motion tracking, LiDAR, AR, lasers, MIDI instruments, and smart lights. As Director of Experience Design at Immersive Gamebox I took seven licensed and original games from storyboard to launch. I plan the player journey, prototype at high fidelity, playtest with real groups, and code my own prototypes, so I design with hardware limits in mind.

EXPERIENCE

Immersive Gamebox · Director of Experience Design

2023 – present

- Led the development team and ran the whole creative process and production, from storyboard to launch in venues worldwide.
- Designed player flows, screen maps, HUDs and interfaces for motion-tracked rooms, producing much of the detailed UI myself alongside artists.
- Built high-fidelity prototypes, refined them through group playtests, and worked directly with licensors including Warner Bros.

GAMES I DESIGNED

Batman at Immersive Gamebox

[Game page](#) ↗

Battle, puzzle and drive the Batmobile to save Gotham.

Ghostbusters: The Cursed Collection

[Game page](#) ↗

Proton-pack aiming, a live-stream HUD and boss fights.

Tetris 1991

NOT CURRENTLY LIVE

[Video](#) ↗ [Press](#) ↗

A hacked Game Boy turns the world into Tetriminos.

Escape AI

[Game page](#) ↗

A 22nd-century cold case with an AI guide.

Floor is Lava

[Game page](#) ↗

Dodge the lava and climb the volcano together.

Football Arcade

[Game page](#) ↗

Skill games with team scoreboards and streaks.

Box Party

[Game page](#) ↗

Physical party games racing up a leaderboard.

All games

EDUCATION

Master of Education

Technology in Education ·
Macquarie University ·
2016–2017

Advanced Diploma in Multimedia

TAFE SA · 2005–2006

Earthrise One · Interactive Designer

- **Star Crew:** a real-time space adventure game room for 2–6 players, with a MIDI touch console for each of six roles and voice control through microphones.

earthrise.one/star-crew [Review](#)

Orbit29 · Senior Product Designer

2021 – 2023

Movember · Learning Experience Designer

2019 – 2021

- **Family Man:** a choose-your-own-adventure video game teaching parenting skills.
- **Ahead of the Game:** a resilience program for young men, with a group activity and a mobile app.

familyman.movember.com aheadofthegame.movember.com

Gripable · Senior UX Designer

2018 – 2021

- UX for a hand-rehabilitation device and its app: game-like exercises driven by a grip controller.

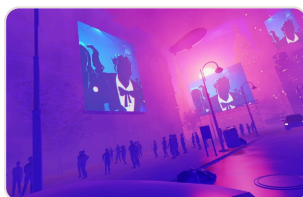

McGraw Hill · Learning Experience Designer & Programmer

2017 – 2019

Gamelearn · Game Designer & Developer

2007 – 2016
